Education

2019-2023 **Gymnasium Muttenz**, *Focus Math and Physics*, Muttenz

2024-2027 **Bachelor Of Computer Science**, *ETH Zurich*, Zurich, GPA: 4.9 (3rd Sem)
Currently taking Key Courses such as Introduction to Machine Learning, Computer Vision

Experience and Projects

2022-2023 **Decentralized Messenger**, *Matura Project*, Grade: 5,5,
Languages/Tech: Javascript, CSS, HTML, GUN.js
Built a decentralized messenger app using GUN.js, which leveraged encryption and independence through decentralization to allow users to securely exchange messages

2024 (Jan - May) **Intern**, *SPECS Zurich GmbH*,
Languages/Tech: Python, PyPi
Authored two python packages which allow customers to communicate with Nanonis Tramea and SPM Controllers through python (see nanonis-tramea (35 downloads past month) and nanonis-spm (174 downloads past month) on pypi)

2024-Today **ShinyDiary — Creator and Lead Developer** ,
Languages/Tech: Rust, Tauri, Svelte, Typescript, Firebase
Developed a cross-platform desktop application designed for Pokémon "Shiny Hunting" enthusiasts to track, log, and automate encounter statistics with a debounced persistance database strategy for improved scalability and reduced costs. (See GitHub)

Languages

English	Native	*Mother tongue*
German	Native	*Mother tongue*
French	Intermediate	*B2 Level*

Technical Skills

Languages: Python, C, Java, Haskell, JavaScript, SQL, HTML/CSS
Machine Learning: PyTorch, Scikit-learn, Computer Vision
Web Development: Svelte, Node.js, Tauri
Developer Tools: Git, Docker, Kathara, VS Code, Linux, GitHub Actions
